WHO IS A GOOD FIT FOR US?

Are You the Right "Fit" for SX Fitness Lounge?

SX Fitness Lounge is successful because Terence Turner has been aggressive and consistent in refining his operational model, driving for industry excellence, and providing value to both clients and business partners.

The number one quality for a successful SX Fitness Lounge franchisee is a commitment to the health and wellness of customers, and the ability to recognize and hire staff that exhibit this dedication as well. Aside from previous fitness and/or wellness industry experience, our ideal candidate will possess the following qualities:

**Strong Sales and Customer Service Abilities.**

The owner/operator for a SX Fitness Lounge franchise must be comfortable with face-to-face contact. The fitness industry runs on a foundation of trust, so a franchisee must be a "people person" who is outgoing and can establish credibility with clients and business partners.

**Problem Solver.**

It is important that a franchisee be hands-on, detail-oriented, and able to think on their feet. The ability to negotiate with vendors and address customer concerns with finesse is critical to franchise success.

**Good with Timing and Schedule Management.**

The multiple moving parts of a successful fitness center require a high degree of organization. A SX Fitness Lounge franchisee should feel comfortable managing employees, schedules, third-party associates and programs.
